One team was charged with general clean up including weeding, raking, and removing rubbish and salvaging building material from boundary fencing. Whilst a second team commenced preparation to give the canteen, storage building and toilets a new lick of paint. Others took care of light maintenance to equipment in need of repair. Another team worked on the race area weeding, smoothing, and laying astro turf, extending the turfed area trackside from the finish line. The task was an extremely heavy and onerous, but Ryan and the crew powered through working together to finish the job at hand.

The team put in an awesome effort to complete the tasks listed for the day and were happy to sit in the shade and enjoy their lunchbreak. When all was done their assistance was gratefully acknowledged by the Club as everyone gathered at the start line for a wrap up team photo and look over what they had achieved on the day.

Well done everyone and many thanks for your contribution to the community in Hedland, hope you all enjoyed your day.
