

BHP AT KMBC

Kalamunda Mountain Bike Collective (KMBC) is a not-for-profit, volunteer-run trail advocacy group which aims to provide sustainable and environmentally sensitive trails of international standards. Kalamunda's mountain bike trail network stretches over 60km and is located alongside Mundaring Weir Road. The trails are maintained by KMBC and work in conjunction with Department of Biodiversity.

On May 31, the eager volunteers from BHP's Geological Modelling Team dedicated their Tuesday to assist KMBC. The team worked on general trail maintenance and clearing drainage. The team broke into smaller groups and throughout the day made their way up the trails.

During their time at KMBC, the team had the opportunity to catch up with peers whilst helping a great organisation. Both Cam and Dave from KMBC could not have been happier with this team's efforts and were so impressed with the work that was accomplished in such a short period of time. Great work team!
