

BHP

NEW SKILLS!

Your highlights:

Learning how Dismantle encourage and motivate youths to enhance life skills and opportunities.

Working with my hands and changing tyres.

Learning about the organisation and more about bikes.

Listening to the stories of Dismantle and talking with Georgina.

Learning about the organisation and how they help kids.

Learning how to change a tyre – might get back on my bike!

Dismantle is a non-for-profit that exists to provide young people with enabling support so they can manage their life in a self-directed way. Dismantle uses bikes as a tool to empower young people through their multiple programs.

On Thursday 26 August, a group of 6 volunteers from the NPI People Logistics team volunteered their valuable time to assist Dismantle with the ongoing task of sorting their workshop and organising spare parts. To kick start the day, the team were given an overview from Georgina (Volunteer Coordinator), of the work of the organisation and the tasks they would be undertaking. It was then all systems go, with the team tasked with pumping air into various tyre tubes, and sorting out some spare parts. Once complete, the team watched a demonstration on how to change a tyre from Georgina, and then put their new skills to the test – auditing through a bunch of spare tyres to see if they could be reused, or stripped for spare parts. The sorted spare parts will be used in the Dismantle BikeRescue program to replace broken or missing parts on the participant's bikes.

The team made a huge impact during their time at Dismantle and brought great energy and enthusiasm into the workshop. Thank you to this wonderful group for all their help.
