

WHEELIE WONDERFUL!

Dismantle is a non-for-profit that exists to provide young people with enabling support so they can manage their life in a self-directed way. Dismantle uses bikes as a tool to empower young people through their multiple programs, including their Bike Rescue program and ReNew Property Maintenance. Dismantle also provides ongoing training, equipment, guidance and support to regional partners to ensure sustainability and impact for young people and their communities.

On Monday 3rd April, the Yandi Reliability Team volunteered their time assisting Dismantle with ongoing workshop tasks. After an enthusiastic welcome from Georgina, Volunteer Coordinator at Dismantle, the team got stuck into moving and organising bikes in the undercover area. Dismantle are currently in the process of moving locations so the team were able to help Georgina organise the space and make it more functional for the time being. The team were in for a treat today, as it was an Easter themed morning tea which consisted of hot cross buns, easter eggs and bunny shaped baked sweets. After morning tea, the team got stuck into dismantling bikes, stripping them for their parts and organising the parts into categories of keep, throw away and donate. The team even had the opportunity to learn how to fix a tyre and ask any burning questions they had about bike maintenance.

As the day wrapped up, the team gathered for a group photo and were sent on their way to their next team bonding experience. Thanks so much to this team for contributing their time and effort to assist Dismantle. We hope they enjoyed the day.

Key Highlights:

-  Learning about Dismantle
-  To work with bikes
-  Social impact
-  Helping youth
-  Getting good work done
-  Hands on removing old bicycle parts for re-use
-  Pulling things a part
-  Seeing the passion of the dismantle team members and we volunteer.
