

BHP

BHP AT HEDLAND GOLF CLUB

The Port Hedland Golf Club has been a part of the Port Hedland community for 36 years. The club has been a pivotal social activity for the town and the Pilbara the region for both golfers and the wider community. The Golf club has approximately +200 members, competition days are held every Saturday through the year. The sand green course has 18 holes, staff rely heavily on its members and volunteers to help with the maintenance and upkeep of the course with general busy bees being held periodically.

On Tuesday 21st March, 22 BHP employees spent the morning assisting at Hedland Golf Club with general site maintenance activities. The team undertook various tasks around the clubhouse and the course, including painting the kitchen ceiling, gardening, litter picking, raking, and removing unwanted items from the site. The team divided and conquered, with each team member completing the necessary tasks.

The team had a great productive day, and the Hedland Golf club staff and volunteers couldn't be more appreciative of the teams efforts. Thanks so much and we hope the team enjoyed their volunteering day.
