RECORD BREAKING DAY AT DANDELIONS WA

Dandelions WA stands as a beacon of hope. With the unwavering support, compassion, and generosity of the incredible WA community, we are dedicated to spreading kindness and cultivating a sense of optimism. Behind Dandelions WA, there is a team of volunteers who are the driving force behind our mission. Whether it's through our thoughtfully crafted "Kindness Kits," tailored with essential toiletries, clothing, and extras relevant to gender and age, or by fulfilling specific wishes from communities, families, individuals, or partner agencies, we strive to make a difference. From assisting remote agencies in acquiring baby baths and towels to supporting neighborhoods impacted by fires or droughts in their recovery, from collaborating with the WA Police to aid victims of family and domestic violence to providing Back to School backpacks for WA school students

On Monday 16th October, 11 members of the BHP Technology EngOps - TRAiNSIGHT team arrived at the Dandelions WA warehouse in Malaga ready to break some records. After a quick introduction from Vicky and a demonstration of the days task - packing school bags for primary and high school kids in need - the team knuckled down. With the aim to complete 400 bags by the end of the day and the weather against them the team got into their rhythm. By morning tea they had packed 105 primary bags and 84 high school bags. As the day got warmer the team kept packing with 243 primary bags and 209 high school bags by lunch time. After regaining their energy the team smashed through the remaining time wrapping up with a whopping 600 bags packed to be shipped up to the kids in need in the Kimberley.

Well done to everyone for putting in such a big effort on the day. Thanks BHP!
