

BHP

HELPING THE NEIGHBOURHOOD!

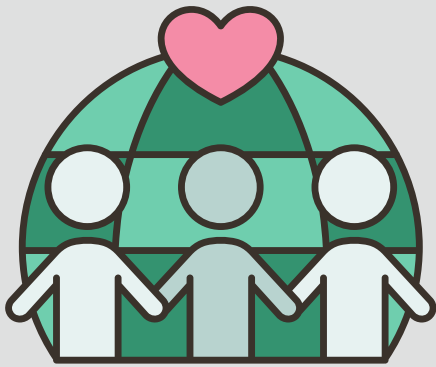

The aim of the Newman Neighbourhood Centre is to encourage the development of a sense of community and enhance the quality of life for families and individuals in Newman.

On Saturday 23rd September, a team of 11 enthusiastic BHP volunteers contributed their time to support the Newman Neighbourhood Centre. The team arrived ready to get their hands dirty, after the team collected their PPE they got straight to work.

The volunteers serviced the air conditioners in the centre, changed the light fittings to LED's, repaired leaking taps and retic, tightened the bolts in the fences and playground equipment. After a well deserved break for morning tea the hard working team got back to work completing the remaining tasks, which included: removing debris from the top of the dongas and old concrete footings from the lawn and cleaned out the toy library.

All in all, it was a successful day and the Newman Neighbourhood Centre was thankful for the help and support they received. Thanks to this awesome team for all your efforts in making such an impact to this fantastic organisation. We hope you enjoyed your volunteering experience!

Well done BHP!
