

CHRISTMAS MISSION

Founded in 2018, The Junction Co. commenced as a creative enterprise collaboration specializing in place activation and learning experiences. Since its inception, the Junction has evolved into a well-established not-for-profit organisation with a clear vision to inspire and empower Pilbara based artisans and creatives.

On Friday 17th November, 8 members of the BHP Track Maintenance Team volunteered their afternoon to support the Junction Co. in Port Hedland. The teams task for the day was to assist in the setup for the Annual Christmas Markets. The efficient and hard working team helped the stall holders setup their stations, which included helping them locate their spots. They also set up the light towers, organised the kids craft station, and prepared the seating area.

The team finished their day with an ice cream from Red Dog Donuts. Most of the volunteers had not been to the Christmas Markets before, despite living in town for many years, so they were all more than happy get involved.

Well done to everyone for putting in such a huge effort on the day, the Junction Co. and the stall holders were extremely grateful. We hope you enjoyed your volunteering experience.

Thank you BHP!

Team Highlight

"Meeting the lovely people and just helping the community"

"Friendly staff and well organised"

"Set up stalls and marquees, table and chairs"

"Meeting all new people and smelling the lovely food cooking"

"Meeting local businesses"
