

BHP

NEW SKILLS!

Dismantle is a non-for-profit that exists to provide young people with enabling support so they can manage their life in a self-directed way. Dismantle uses bikes as a tool to empower young people through their multiple programs.

On Friday 24 September, a group of 9 volunteers from BHP's Group RAS Team contributed their valuable time to assist Dismantle with the ongoing task of sorting their workshop and fixing second-hand bikes. To kick start the day, the team were given an overview from Georgina (Volunteer Coordinator), of the work of the organisation and the tasks they would be undertaking. It was then all systems go, with the team tasked to install gear and brake housing onto the bicycles. These bicycles will then be sent to a high school as part of Dismantle's BikeRescue Program. After morning tea, the team headed upstairs to Dismantle's boardroom for a major clean-up and re-organisation. The team utilised their organisational skills to help tidy up the space. As the day wrapped up, the boardroom was super organised, spacious, breathable and functional.

The team made a huge impact during their time at Dismantle and brought incredible energy and enthusiasm on their volunteering day. Thank you to this wonderful group for all their help and assistance.
